Education

Vivekanand Education Society's Institute of Technology **August 2023 – May 2027**
B.E in Information Technology; CGPA: 9.0 (Sem 6) *Mumbai, India*

Indian Institute of Technology Madras **July 2023 – Present**
B.S. Data Science; Theory CGPA: 8.14 *Remote, India*

Experience

Web Developer Intern **Mar 2024 – Apr 2025**
Palcoa Solutions Pvt. Ltd. *Mumbai, India*

- Engineered a **salon management** platform to streamline appointment scheduling and operations.
- Established **role-based access** control with secure authentication flows.
- Integrated **Firebase Authentication** to enable reliable and secure user session management and a **responsive Bootstrap-based UI**, enhancing overall usability and user experience.

Projects

RoleRadar | *Node.js, Express, MongoDB, Electron, React, AWS S3*

- Built a job discovery platform that aggregates postings from multiple sources and matches opportunities using **role, skills, location, experience, and salary** preferences.
- Developed **Node.js/Express APIs** with MongoDB to manage job listings, user preferences, and application data, while ensuring privacy by keeping **Baileys and Electron local** and transmitting only relevant job messages.
- Integrated **AWS S3** for secure storage and retrieval of user-uploaded resumes.

FinGuard | *Python, FastAPI, LangChain, LangGraph, MongoDB, Node.js*

- Built a WhatsApp assistant that extracts and stores **21 structured eligibility attributes** using Pydantic-validated LLM output with strict "no inference" rules.
- Designed an **18-dimension mapping layer** to normalize user data into the **MyScheme.gov API schema** for scheme eligibility search.
- Orchestrated a **5-node LangGraph pipeline** to query **1,000+ government schemes** while maintaining structured data flow.

ParkWise – Smart Vehicle Parking Management System | *HTML, CSS, Bootstrap, Flask, SQLite*

- Developed a **Flask-based parking management system** automating vehicle entry, exit, slot allocation, and fee calculation.
- Implemented **role-based authentication** and an admin dashboard for managing users, vehicles, parking slots, and transactions.
- Designed a responsive **Bootstrap interface** for efficient parking operations and real-time slot management.

Technical Skills

Languages: Python, Java, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: Node.js, Express, Django, Flask, Bootstrap, React
Databases & Cloud: MongoDB, AWS S3
Tools: Git, GitHub, Firebase Authentication, OAuth

Certifications

- Foundational Certificate in Data Science – IIT Madras
- Advanced Certificate in Programming – IIT Madras
- Advanced Certificate in Data Science – IIT Madras

Achievements

- **Senior Graphics Officer** at QuestIT - VESIT; designed and delivered visual assets for **3+ workshops** and **2 flagship events**, ensuring consistent branding and high-quality creatives.
- Top **30 Finalist** out of 300+ teams at VES-HACK-IT – Smart Parking System.
- Top **50 Finalist** – SynapHack 3.0 Hackathon.
